Just a few more casts while my lunch cooked...

...it only took a second for my fire to go wild.

- If it's too dry or windy, don't start a fire
 - Build your fire on rock, clay or sand
- Keep the fire small and don't leave it unattended
 - Have a pail of water and shovel handy
- Make sure your fire is completely out by drowning it with water

Remember, if your fire goes wild, you may be held liable to pay for damages.
For tips on fire safety, visit www.se.gov.sk.ca or contact your local Environment office.

To report a wildfire, call Firewatch, toll-free at **1-800-667-9660**.

Saskatchewan
Environment

**Be prepared...
don't let your fire go wild.**
